Qualité : un engagement permanent des équipes T2C

Entre 2006 et 2011, **l'Espace T2C, le service du contrôle** et le **service des renseignements à distance (Infolignes et l'information en temps réel)** ont obtenu leur **certification NF Service**.

Ce label, à confirmer chaque année, assure à notre clientèle une qualité de service constante et performante avec l'obligation d'améliorer continuellement la prestation de service offerte.

Les améliorations induites par les démarches qualité et les certifications s'appuient sur des enquêtes réalisées régulièrement auprès de la clientèle et des mesures quotidiennes qui permettent à T2C de connaître ses performances, comme les progrès à réaliser du point de vue de la clientèle.

La démarche de certification s'étend aux lignes T2C.

Les lignes A et B sont certifiées depuis 2010.

La certification de la ligne 3 en 2012 est engagée.

En fin d'année, près de 70% de la clientèle bénéficiera ainsi de lignes certifiées NF Service.

Qualité : un objectif de la collectivité

Le SMTC (Syndicat Mixte des Transports en Commun de l'agglomération clermontoise) **fixe chaque année un objectif de qualité à T2C.**

Le référentiel, déterminé par le SMTC, est évalué par ce dernier. Les objectifs annuels fixés par le SMTC, avec plus de 91 % de conformité, ont été atteints, voire dépassés chaque année par T2C, depuis 2008.

plus de 70% de la clientèle utilise des lignes accessibles

En cohérence avec la loi de février 2005, le SMTC, T2C et les associations de personnes handicapées sont engagés dans un plan pluriannuel de mise en accessibilité des transports en commun ; particulièrement tourné vers les Utilisateurs de Fauteuil Roulant (UFR).

Dans ce cadre, une ligne est considérée accessible lorsque :

- les arrêts ont été aménagés selon la norme définie ou équivalent (hauteur et bordure de quai, rampe d'accès, bandes podotactiles, dispositifs d'éveil sur les surfaces vitrées...);
- les véhicules bus disposent d'une place aménagée réservée et sont équipés d'une palette d'accès rétractable*.

Cette palette est réservée aux fauteuils roulants : faire signe au conducteur, se rendre devant la porte médiane et attendre le déploiement de la palette par le conducteur (manœuvre possible portes fermées).

- les bus accessibles sont identifiés :  *sur la porte médiane*  *à l'avant*
- les lignes concernées affichent un pictogramme en terminus sur les plans.

Aujourd'hui, plus de 115 kilomètres de lignes et plus de 250 arrêts accessibles.

Les lignes **A**, **B**, **3** et **4** sont accessibles. Sur les lignes A et B, l'information embarquée est doublée d'un dispositif sonore.

La mise en accessibilité de la ligne 6 est envisagée pour fin 2013. Outre l'acquisition et l'aménagement des bus, le SMTC** investit dans la mise aux normes des arrêts. Aujourd'hui, plus de 400 arrêts ont été ainsi aménagés pour plus de 3,5 millions d'euros environ.

Pratique

- dans le bus, un seul UFR par bus accessible ;
- dans le tram, accès par les portes situées aux extrémités (chacun des deux modules propose un emplacement spécialement aménagé et réservé). Il est admis un accès aux différentes portes et plate-formes, dans l'axe de la marche.

*Dans le tram, l'aménagement des quais et du véhicule permettent un accès sans palette.

Accéder à nos services

Tous les arrêts de bus sont facultatifs. Merci de faire signe au conducteur pour obtenir l'arrêt. Aucun arrêt n'est accepté en dehors des arrêts signalés pour des raisons de sécurité.

Aux stations tram, laisser descendre les passagers avant de monter dans les rames.

- L'ouverture des portes est automatique. Pour les bus, la montée se fait impérativement par l'avant.

- À l'intérieur du bus, l'arrêt doit être demandé en appuyant sur le bouton « arrêt demandé ».

L'accès aux services nécessite de posséder un titre de transport ; à défaut d'en acquérir un auprès du conducteur de bus, des distributeurs ou des dépositaires les plus proches.

- Les tickets permettent de se déplacer sur l'ensemble du réseau pendant 1 h 10 à partir de la 1^{re} et unique oblitération.

- **Tous les titres sur carte mode Pass doivent être validés** à chaque montée dans un bus ou un tram.
- **Tous les titres de transport doivent être présentés** au conducteur du bus à chaque montée.

Cas particuliers

- **Les utilisateurs de fauteuil roulant peuvent accéder :**

- **au tram :** de préférence par les portes situées aux extrémités de la rame où un emplacement est spécialement aménagé et réservé. La montée par les autres portes est possible dans la limite de l'affluence. Dans ce cas, se positionner sur la plateforme, dans l'axe de la marche du véhicule.
- **aux bus des lignes accessibles :** par la porte médiane, uniquement si le véhicule est équipé d'un emplacement spécifique et d'une palette.

... et autres bonnes pratiques

- **Les personnes avec enfant en poussette, dans la mesure où l'affluence le permet, peuvent accéder :**

- **au tram :** de préférence aux extrémités de rame à raison d'une seule poussette par plateforme ;
- **aux bus :** par la porte médiane lorsque le pictogramme est présent. Merci de se signaler auprès du conducteur avant la montée. Sinon, la montée doit se faire par la porte avant, poussette pliée.

- **Les voyageurs avec un vélo :**

- sont **admis dans le tram** sur les plateformes situées aux extrémités de la rame, **si les conditions d'affluence le permettent** et sauf de 7 h 00 à 9 h 00 et de 16 h 00 à 19 h 00, du lundi au samedi.
- sont interdits dans le bus.

Pour le confort et la sécurité de toutes et de tous

- Les animaux ne sont pas admis dans les véhicules. Seuls ceux placés dans un bagage à main et isolés de la clientèle ainsi que les chiens guides pour aveugles sont acceptés.

- Se tenir aux barres et aux poignées.

- Ne pas troubler la tranquillité des autres voyageurs et, pour le confort de tous, mettre les écouteurs si vous voyagez en musique.

Quelques interdictions strictes

- Fumer dans les bus et tram.

- Transporter des objets ou produits dangereux.

- Jeter des détritrus par terre (utilisez les poubelles aux arrêts).

- Mettre les pieds sur les sièges ou détériorer le matériel.

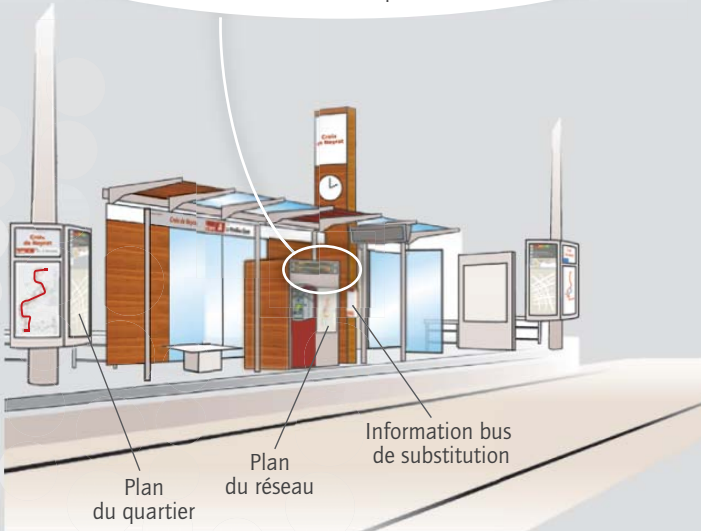

S'orienter aux stations tram

Rien de plus simple, aux stations tram, que de s'orienter pour trouver son lieu de destination ou un arrêt de bus pour effectuer sa correspondance.

- Au-dessus du distributeur de titres de transport, une première information vous indique dans quel sens vous diriger pour rejoindre un arrêt de bus et / ou un lieu public majeur.
- Aux extrémités des stations, un plan de quartier très détaillé, avec index des rues, vous indique - dans l'orientation où vous trouvez - toutes les informations urbaines alentours (rues, lieux publics, arrêts de bus...).

Indication des correspondances

Plan du quartier

Plan du réseau

Information bus de substitution

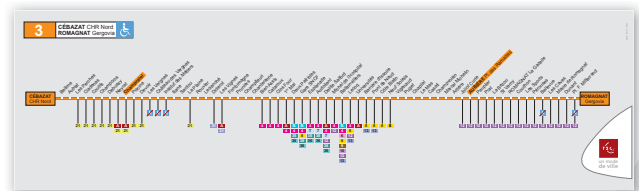

S'orienter sur la ligne B

Aux arrêts de correspondance principaux de la ligne B (Europe, Chamalières Mairie, Jaude, Ballainvilliers et Gare SNCF), un plan de quartier détaillé vous aide à trouver l'arrêt de bus (ou la station tram) en correspondance. Il est affiché dans le cadre d'information placé sous l'abri.

Lignes A B 3

- Sur ces trois lignes pour lesquelles les véhicules leur sont affectés, un schéma de ligne est affiché à l'intérieur. Pour chaque arrêt est indiqué l'indice des lignes qui peuvent être prises en correspondance.

- Sur toutes les lignes, un plan de réseau est affiché dans les véhicules et apporte la même information.
